## Girls Who Grew Up to Change the

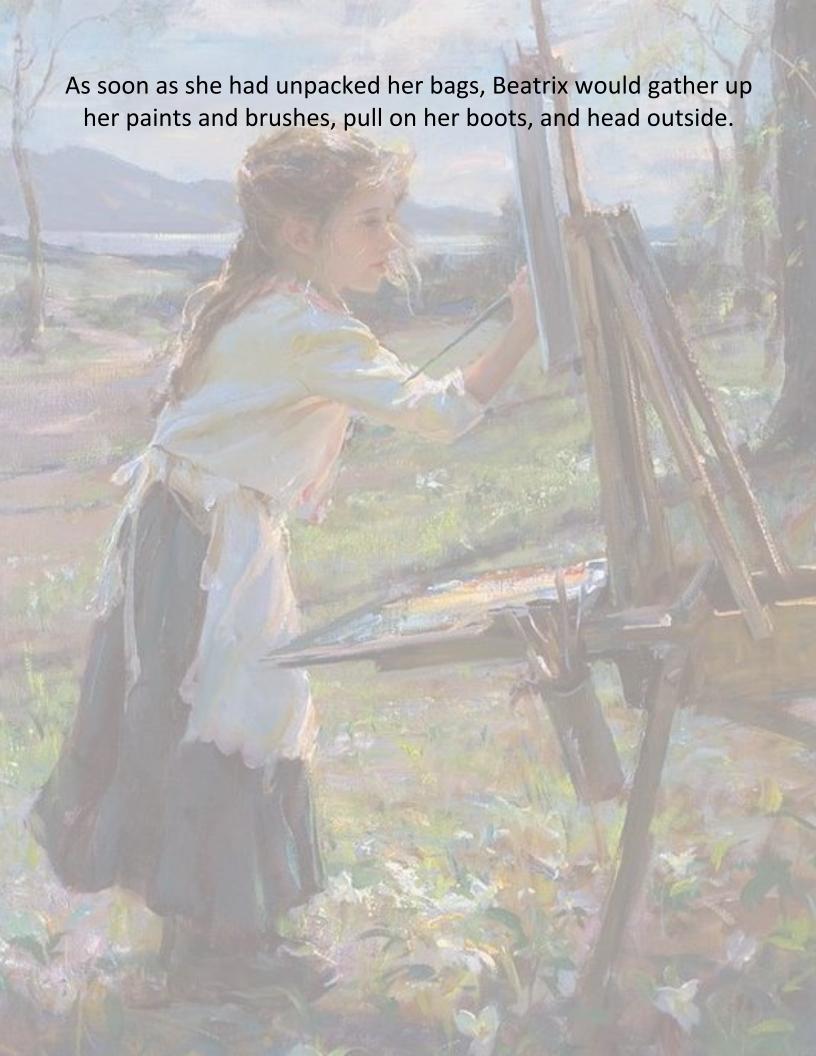

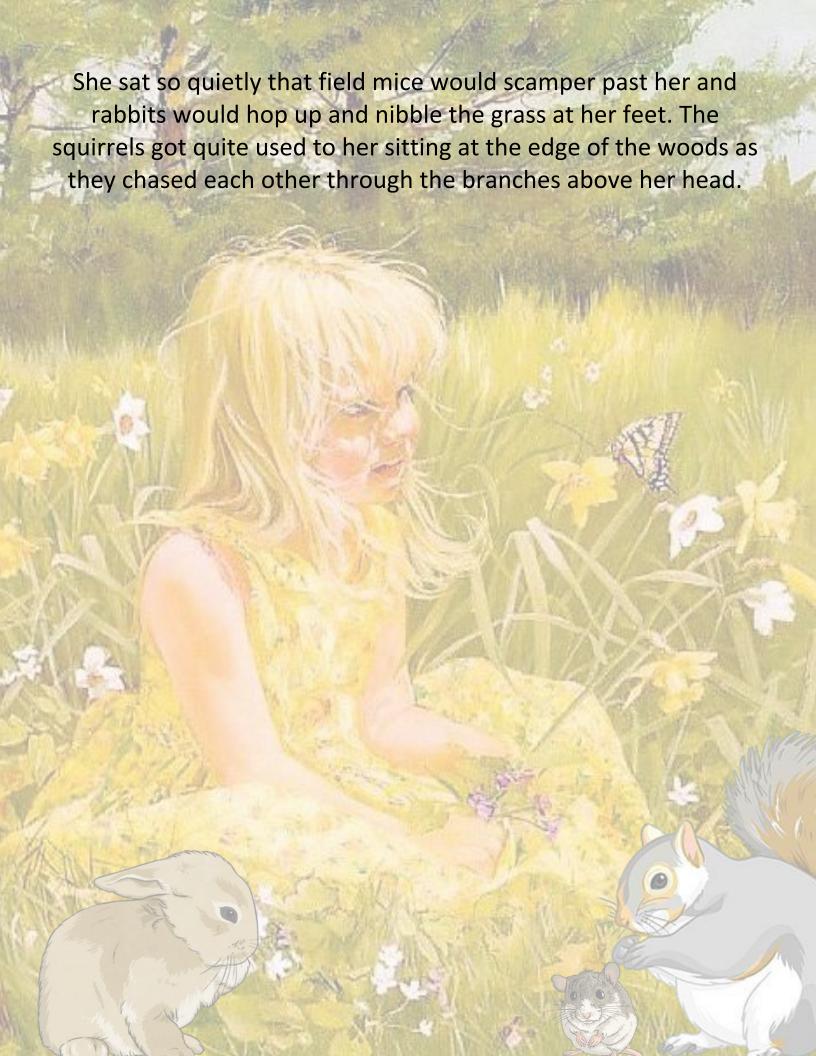

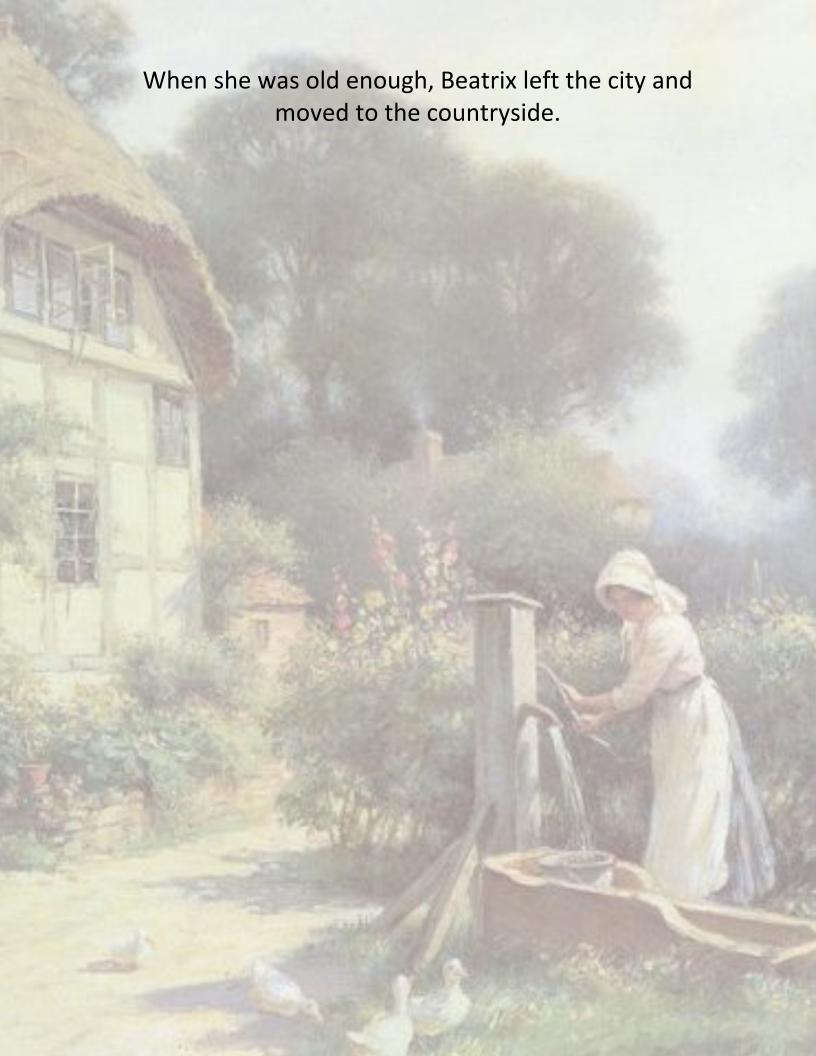

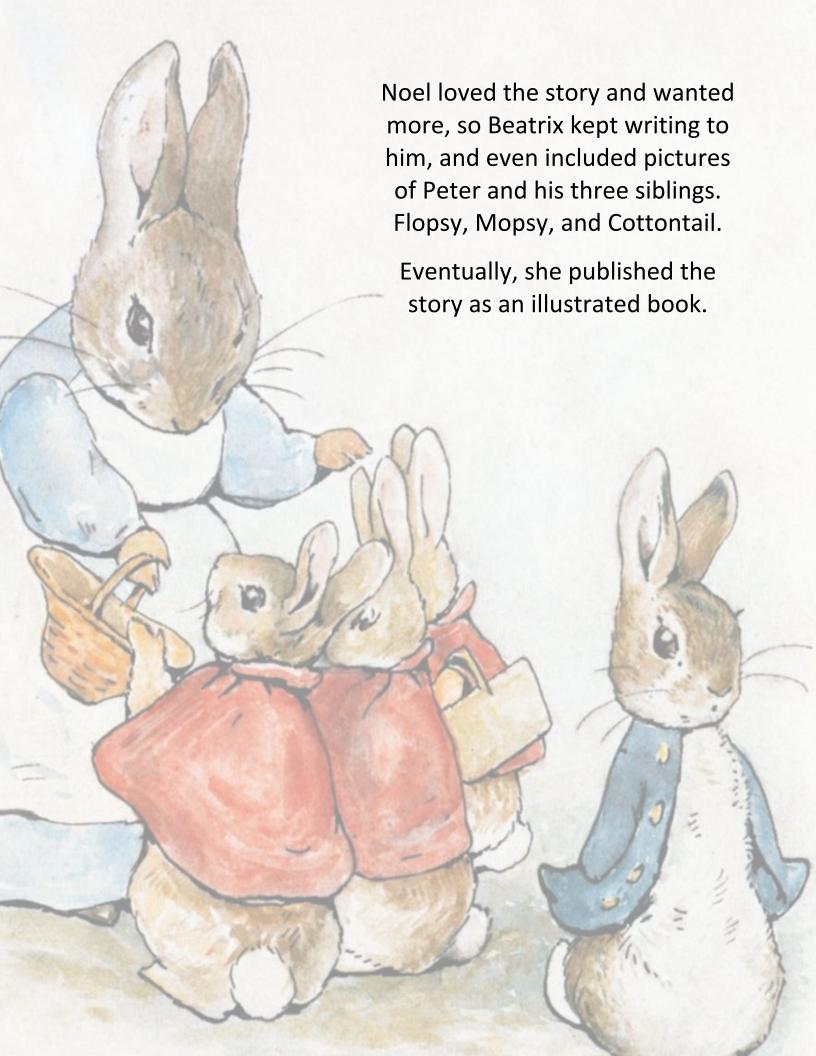

Beatrix spent all year looking forward to the summer holidays, when she and her little brother could escape the drab, gray city streets for the wild Highlands of Scotland.

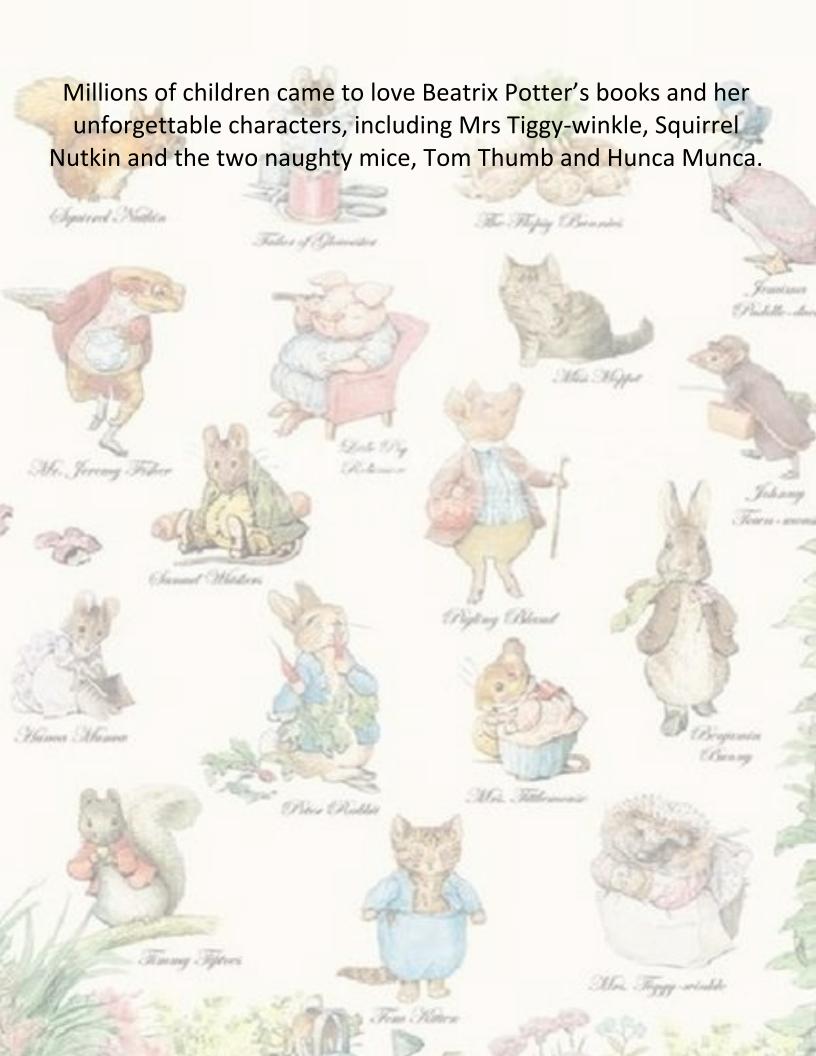

One day, she sent a letter to a young friend of hers, a little boy called Noel. In the letter, she made up a story about a naughty rabbit in a smart blue jacket who steals vegetables from the garden next door and is chased by the farmer. Beatrix named him Peter, after her own pet rabbit.

Her very first book, "The Tale of Peter Rabbit", became one of the most popular children's stories of all time.

Beyoncé was six years old when her dad started selling people tickets to go to their house and see her sing and dance.

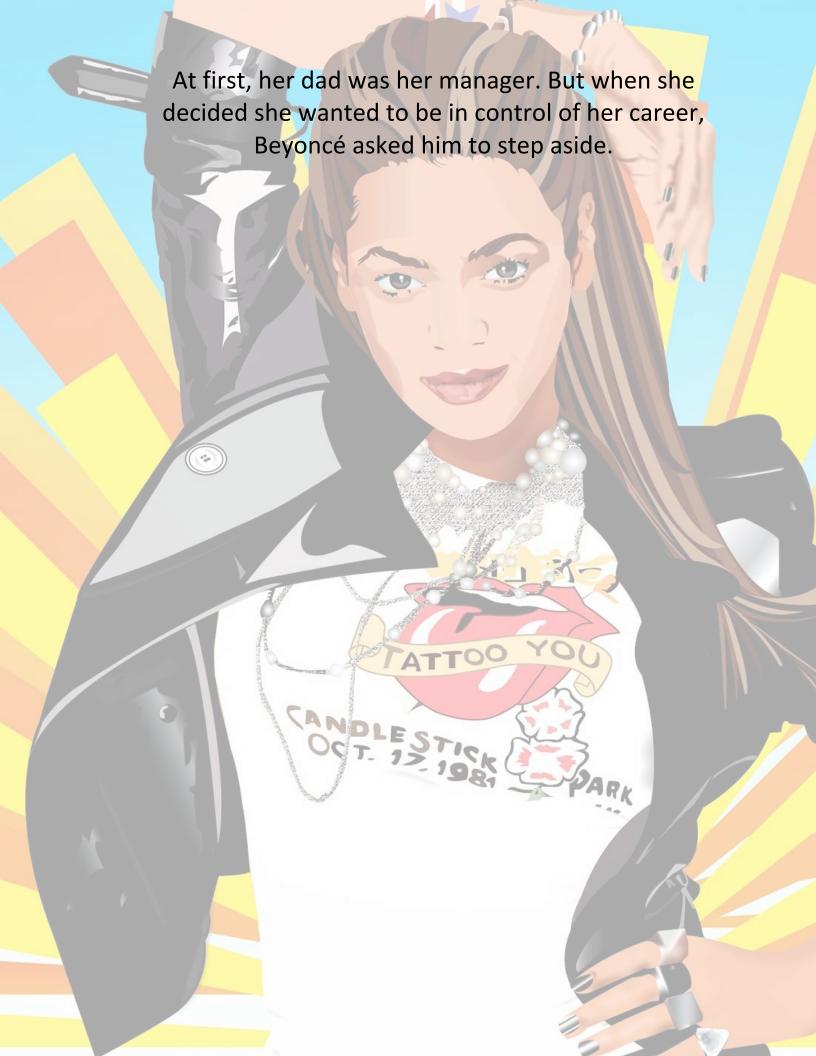

When Beyoncé told her mom she wanted to create a band with her friends, her mom said "Okay. I'll make your costumes."

And so, Destiny's Child was born.

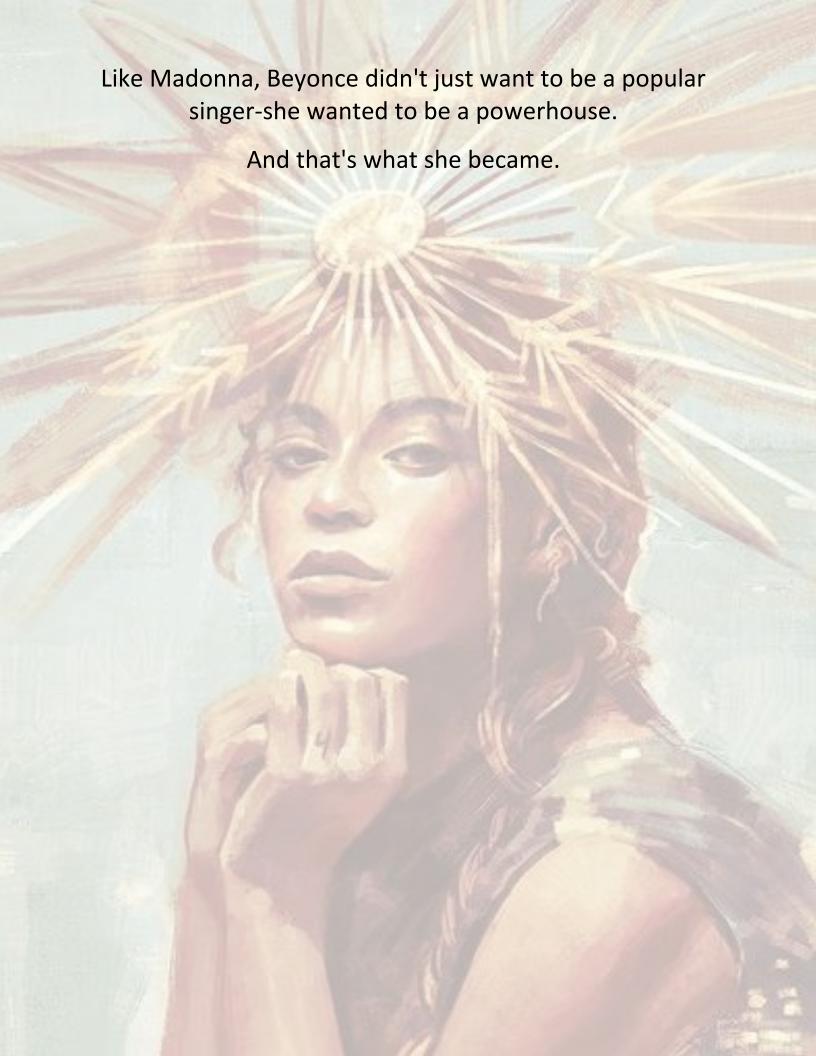

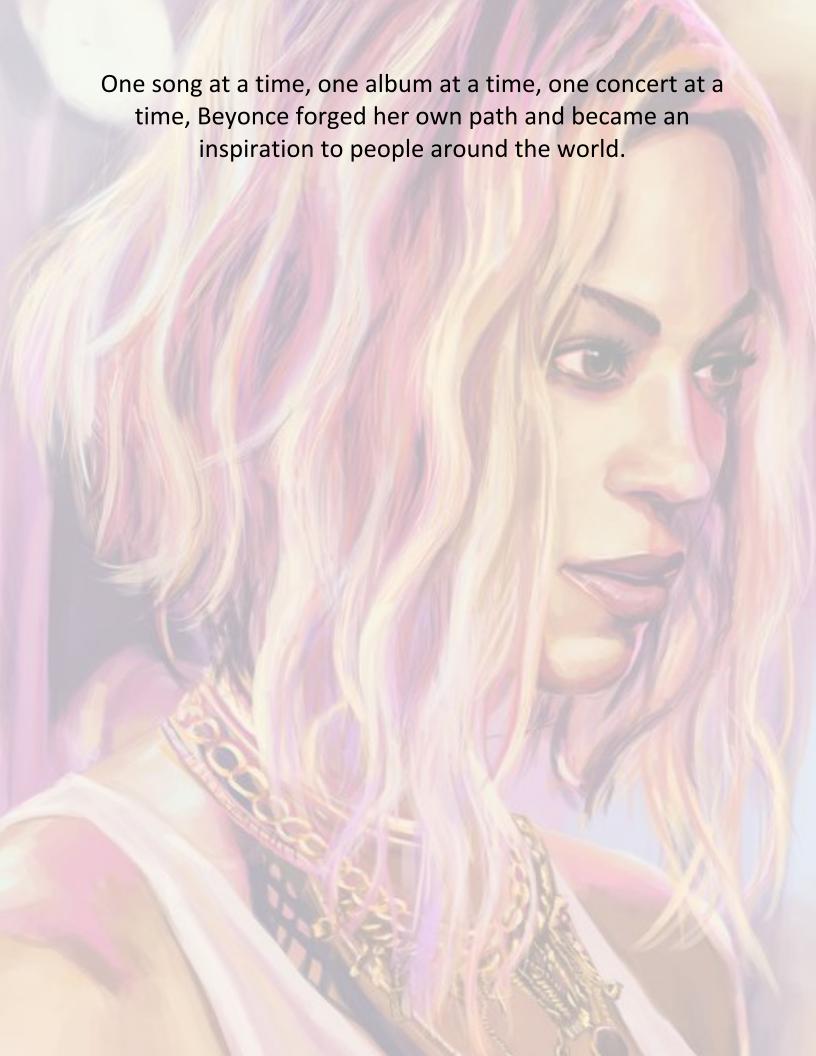

Beyoncé was the queen of the band. She was driven, focused, and interested in learning as much as possible about every aspect of the music business.

She sang about freedom, about love, about independence, and about pain: both personal pain and social injustice. She inspired millions of black women to be proud of their culture, of their origins, of their own unique style.

When Beyoncé was asked to perform during the halftime show of the Super Bowl, the biggest sporting event in the United States, she entered the stadium leading an army of female dancers all dressed in black. With her compelling song "Formation," she dropped a black power anthem in front of one hundred million viewers.
